PROFILE

Graduated in Information Systems with a strong interest in technology, especially in backend development and solving technical problems. I enjoy learning new things and can easily adapt to different situations, whether working alone or with a team. I have experience teaching and guiding others in tech-related programs, and I'm confident in communicating ideas clearly. I'm someone who likes to see things done well and always try to give my best in every task.

EXPERIENCES

Haltev IT Learning Center

❖ **Software Engineer Instructor | Full-time** | June 2025 – Present | Bekasi, Indonesia

- Delivered instruction across multiple programs, including Fullstack Web Development, Data Science, Artificial Intelligence, and Programming for Kids.
- Taught Fullstack Web Development bootcamps, covering frontend and backend fundamentals, REST APIs, and basic deployment workflows.
- Conducted Data Science bootcamps, introducing participants to data analysis, visualization, and machine learning using Python.
- Led AI-focused classes, covering machine learning concepts, deep learning fundamentals, and introductory NLP applications.
- Instructed Coding for Kids programs, teaching foundational programming logic using Scratch and Roblox Studio (Lua).
- Facilitated both online and offline classes, ensuring participant engagement through hands-on exercises and project-based learning.
- Assisted learners during coding exercises and real-world mini projects, adapting explanations to varying skill levels.
- Provided individualized support and mentoring to participants facing learning challenges.

❖ **Course Instructor, Assistant, Admin | Part-time** | September 2021 – Present | Cakung, Indonesia

- Managed and recorded participant grades efficiently.
- Organized and facilitated smooth course sessions.
- Assisted participants with rescheduling course sessions.
- Delivered course material, answered questions, and provided support in the learning process.
- Performed troubleshooting to address technical issues.

Skilvul Tech4Impact

❖ **Back-end Web Development** | **Internship** | August 2022 – December 2022 | Bekasi, Indonesia

- Developed CRUD operations using Express.js.
- Created a TMDB website utilizing an API key.
- Completed the MS Wellbeing challenge by developing a Psychology website in a group using the MERN stack (MongoDB, Express JS, React JS, and Node JS).
- Built web services and RESTful APIs.
- Designed UI/UX prototypes.

Lembaga Pengembangan Komputerisasi Universitas Gunadarma

❖ **Trainer of Korlantas Computer Education and Training | Part-time** | September 2024 – October 2024 | Bekasi, Indonesia

- Prepared the classroom and computers for the learning sessions.
- Provided guidance on how to use Photoshop CS6 and CapCut.
- Directed participants in completing design and video editing projects.
- Created documentation for the training sessions.

Universitas Gunadarma

❖ **UTS Supervisor | Part-time |** December 2024 | Bekasi, Indonesia

- Supervised the administration of Mid-Term Examinations (UTS) to ensure compliance with regulations.
- Provided instructions and addressed participant inquiries during the examination.
- Reported any irregularities or violations to the examination committee.

PROJECTS

PT Veertec Magna Technology | Freelance Web Developer | 2026

- Built a company profile website for PT Veertec Magna Technology using React JS and TypeScript.
- Designed and implemented responsive page layouts (Home, About, Services, Contact) to represent the company's business profile.
- Built the website using React JS, TypeScript, Tailwind, Shadcn.
- Link to the website https://veertec.co.id/

Velora Career | Freelance Web Developer | 2026

- Built a company profile website for Velora Career, a talent sourcing & retail staffing platform connecting young professionals with modern retail industry roles.
- Designed responsive page layouts to showcase company services and career opportunities for job seekers.
- Tech Stack: React JS, TypeScript, Tailwind, Shadcn.
- Link to website https://www.velora-career.com/

PT Haltekom Media Inovasi | Software Engineer Instructor | 2026

- Built a trial class registration platform for Haltev, enabling users to browse available trial classes with details on tutors, materials, and schedule (registration period & class start date).
- Implemented a registration flow with QRIS payment integration and automatic redirect to WhatsApp admin for payment confirmation.
- Integrated Supabase as the backend to store and manage form submissions and trial class data in real-time.
- Tech Stack: React JS, TypeScript, Supabase
- Link to website https://haltev-trial-class.vercel.app/
